

Introducing Habitats

Unit 2 · Worksheet 1 | Habitats, Adaptations & Ecosystems

Name: _____

Date: _____

Part 1: Multiple Choice (Questions 1–50) — Circle the correct answer.

1. What is a habitat?
 - A) A type of food
 - B) The natural home of a living thing
 - C) A type of weather
 - D) A sport
2. Which of these is a basic need of all living things?
 - A) Video games
 - B) Television
 - C) Water
 - D) Clothes
3. Which animal lives in a desert habitat?
 - A) Polar bear
 - B) Camel
 - C) Penguin
 - D) Walrus
4. Which of these is an adaptation of a camel?
 - A) Thick fur
 - B) Sharp claws
 - C) Hump to store fat
 - D) Webbed feet
5. What do plants need to make their own food?
 - A) Meat
 - B) Sunlight
 - C) Milk
 - D) Bread
6. Which habitat has very cold temperatures and ice?
 - A) Desert
 - B) Ocean
 - C) Arctic (Polar)
 - D) Forest
7. What do animals need oxygen for?
 - A) To grow fur
 - B) Breathing
 - C) To swim
 - D) To fly
8. Which of these is a water habitat?
 - A) Pond
 - B) Desert
 - C) Mountain
 - D) Garden

StudiesMate

9. What is the top of the rainforest where most sunlight reaches called?
- A) Forest floor
 - B) Canopy
 - C) Roots
 - D) River
10. Why do polar bears have thick fur?
- A) To look scary
 - B) To swim faster
 - C) To stay warm
 - D) To climb trees
11. What is shelter?
- A) A place to play
 - B) A safe place to live and hide
 - C) A type of plant
 - D) A kind of water
12. Which animal is adapted to live in water?
- A) Lion
 - B) Fish
 - C) Eagle
 - D) Snake
13. What helps fish breathe underwater?
- A) Lungs
 - B) Nose
 - C) Gills
 - D) Fins
14. Which habitat gets very little rain?
- A) Desert
 - B) Rainforest
 - C) Pond
 - D) Ocean
15. What helps a cactus survive in the desert?
- A) Broad leaves
 - B) Storing water
 - C) Thick fur
 - D) Long legs
16. What do we call the place where an animal gets food, water, and shelter?
- A) Playground
 - B) Habitat
 - C) School
 - D) Country
17. Which of these is a forest animal?
- A) Shark
 - B) Deer
 - C) Camel
 - D) Penguin
18. Why do animals migrate?
- A) To play games
 - B) To find food and warmth
 - C) To sleep

StudiesMate

D) To build houses

19. What do webbed feet help an animal do?

- A) Run fast
- B) Swim
- C) Climb
- D) Dig

20. Which animal hibernates during winter?

- A) Bear
- B) Monkey
- C) Camel
- D) Fish

21. What is a desert?

- A) A cold, icy place
- B) A hot, dry place with little rain
- C) A place full of trees
- D) A deep body of water

22. Which animal uses camouflage to hide in the forest?

- A) Polar bear
- B) Chameleon
- C) Goldfish
- D) Parrot

23. What do animals compete for in a habitat?

- A) Toys
- B) Food, water, and space
- C) Books
- D) Clothes

StudiesMate

24. What would happen if a habitat lost all its water?

- A) Animals would swim more
- B) Plants and animals would die
- C) It would rain more
- D) Animals would fly

25. Why do birds migrate in the winter?

- A) They like flying
- B) To find food and warmer weather
- C) To lay eggs
- D) To meet other birds

26. What part of a plant absorbs water from the soil?

- A) Leaves
- B) Flowers
- C) Roots
- D) Stem

27. What is an ocean?

- A) A small pool of water
- B) A large body of saltwater
- C) A desert
- D) A forest

28. Why do desert animals come out at night?

- A) To get a suntan
- B) Because it is cooler

- C) To fly
- D) To swim

29. What is a pond?

- A) A small body of freshwater
- B) A salty ocean
- C) A dry desert
- D) A snowy mountain

30. What do animals use energy from food for?

- A) To change color
- B) To move, grow, and stay alive
- C) To become plants
- D) To make water

31. What helps a polar bear swim in icy water?

- A) Thin fur
- B) Webbed paws
- C) Long tail
- D) Sharp teeth

32. What is a rainforest?

- A) A cold habitat
- B) A wet, warm habitat with many trees
- C) A dry habitat
- D) A habitat with no plants

33. Which animal lives in both water and land habitats?

- A) Frog
- B) Bird
- C) Cat
- D) Dog

34. What do all living things need to survive?

- A) Cars
- B) Food, water, air, and shelter
- C) Beds
- D) Phones

35. Why do plants grow towards the window?

- A) They like looking outside
- B) They need sunlight
- C) They need air
- D) They are cold

36. Which animal has sharp claws to catch fish in the ocean?

- A) Bear
- B) Eagle
- C) Polar bear
- D) Camel

37. What do we call animals that eat only plants?

- A) Carnivores
- B) Herbivores
- C) Omnivores
- D) Predators

38. What do we call animals that eat only meat?

- A) Carnivores

- B) Herbivores
- C) Omnivores
- D) Prey

39. What do we call animals that eat both plants and meat?

- A) Carnivores
- B) Herbivores
- C) Omnivores
- D) Predators

40. Which of these is an omnivore?

- A) Lion
- B) Cow
- C) Bear
- D) Rabbit

41. What are the non-living things in a habitat called?

- A) Plants
- B) Animals
- C) Water and rocks
- D) Mushrooms

42. Why do cacti have spines instead of broad leaves?

- A) To look pretty
- B) To stop animals from eating them and to save water
- C) To catch insects
- D) To help them fly

43. What is a food chain?

- A) A chain made of food
- B) How energy moves from plants to animals
- C) A restaurant
- D) A type of habitat

StudiesMate

44. What is a predator?

- A) An animal that gets eaten
- B) An animal that hunts other animals
- C) A plant that eats insects
- D) A type of weather

45. What is prey?

- A) An animal that hunts
- B) An animal that is hunted and eaten
- C) A type of habitat
- D) A baby plant

46. Which of these is a prey animal?

- A) Lion
- B) Tiger
- C) Rabbit
- D) Eagle

47. Where does a food chain always start?

- A) With the sun and plants
- B) With a carnivore
- C) With water
- D) With a predator

48. What do we call the weather conditions of a habitat over a long time?

- A) Climate
- B) Season
- C) Day
- D) Night

49. Which habitat has four distinct seasons: spring, summer, autumn, and winter?

- A) Desert
- B) Deciduous Forest
- C) Ocean
- D) Rainforest

50. What is an ecosystem?

- A) A single animal
- B) A type of plant
- C) All the living and non-living things in an area working together
- D) A type of weather

Part 2: True or False (Questions 51–70) — Write T for True or F for False.

51. A habitat provides everything an animal needs to survive. Answer: _____
52. A cactus stores water in its stem. Answer: _____
53. Penguins live in the desert. Answer: _____
54. Camels have humps that store fat for energy. Answer: _____
55. Plants do not need water to survive. Answer: _____
56. All habitats have the same weather. Answer: _____
57. Fish use gills to breathe underwater. Answer: _____
58. A forest is a habitat with many trees. Answer: _____
59. Animals can live without shelter. Answer: _____
60. The Arctic is a very hot habitat. Answer: _____
61. Desert animals are usually active during the hottest part of the day. Answer: _____
62. Frogs can live on land and in water. Answer: _____
63. Webbed feet help animals swim. Answer: _____
64. Migration means sleeping through the winter. Answer: _____
65. Hibernation means sleeping through the winter. Answer: _____
66. Oxygen is a gas that animals need to breathe. Answer: _____
67. A pond is a saltwater habitat. Answer: _____
68. Thick fur helps animals stay cool in the desert. Answer: _____
69. Animals and plants depend on each other. Answer: _____
70. A dog's habitat is usually a house or a farm. Answer: _____

Part 3: Fill in the Blanks (Questions 71–85)

Word Box: Habitat | Gills | Camouflage | Hibernation | Roots | Canopy | Herbivore | Polar | Shelter | Sunlight

Use the word box above for questions 71–80. Use your own words for 81–85.

71. The natural home of an animal is called its _____.
72. Fish use _____ to breathe underwater.
73. A polar bear lives in the _____ region.
74. An animal's color or pattern that helps it hide is called _____.

75. When an animal sleeps through the cold winter, it is called _____.
76. Plants absorb water from the soil using their _____.
77. A safe place for an animal to live and hide is called _____.
78. The top layer of the rainforest is called the _____.
79. Plants need _____ to make their food.
80. An animal that eats only plants is called a _____.
81. An animal that hunts other animals is called a _____.
82. The animal being hunted is called the _____.
83. A desert gets very little _____.
84. Camels have wide, flat _____ to help them walk on sand.
85. Whales and dolphins live in the _____ habitat.

Part 4: Matching (Questions 86–95) — Draw a line to match each item.

Match the animal to its habitat:

- | | |
|----------------|--------------|
| 86. Polar Bear | • Desert |
| 87. Camel | • Ocean |
| 88. Shark | • Pond |
| 89. Frog | • Arctic |
| 90. Monkey | • Rainforest |

Match the adaptation to its purpose:

- | | |
|------------------|------------------------------|
| 91. Thick fur | • Helps swim in water |
| 92. Webbed feet | • Stores water in the desert |
| 93. Gills | • Keeps animal warm in cold |
| 94. Fins | • Helps breathe underwater |
| 95. Cactus stems | • Helps fish move in water |

Part 5: Short Answer (Questions 96–100) — Answer in 1–2 sentences.

96. What are the four basic needs of all living things?

97. Why do camels have wide, flat feet?

98. What is the difference between hibernation and migration?

99. How does camouflage help an animal survive?

100. Why don't polar bears live in the desert?

StudiesMate

■ ANSWER KEY

(For Parents & Teachers)

Part 1: Multiple Choice (Q 1–50)

1. B | 2. C | 3. B | 4. C | 5. B | 6. C | 7. B | 8. A | 9. B | 10. C | 11. B | 12. B | 13. C
14. A | 15. B | 16. B | 17. B | 18. B | 19. B | 20. A | 21. B | 22. B | 23. B | 24. B | 25. B | 26. C
27. B | 28. B | 29. A | 30. B | 31. B | 32. B | 33. A | 34. B | 35. B | 36. C | 37. B | 38. A
39. C | 40. C | 41. C | 42. B | 43. B | 44. B | 45. B | 46. C | 47. A | 48. A | 49. B | 50. C

Part 2: True or False (Q 51–70)

51. T | 52. T | 53. F (Penguins live in polar/icy regions) | 54. T | 55. F (All living things need water) | 56. F (Different habitats have different weather) | 57. T | 58. T | 59. F (Animals need shelter for protection) | 60. F (The Arctic is very cold)
61. F (Desert animals are usually active at night) | 62. T | 63. T | 64. F (Migration means moving to a new habitat) | 65. T | 66. T | 67. F (A pond is a freshwater habitat) | 68. F (Thick fur keeps animals warm, not cool) | 69. T | 70. T

Part 3: Fill in the Blanks (Q 71–85)

71. Habitat | 72. Gills | 73. Polar | 74. Camouflage | 75. Hibernation | 76. Roots | 77. Shelter | 78. Canopy
79. Sunlight | 80. Herbivore | 81. Predator | 82. Prey | 83. Rain / Water | 84. Feet | 85. Ocean

Part 4: Matching (Q 86–95)

86. Polar Bear → Arctic | 87. Camel → Desert | 88. Shark → Ocean | 89. Frog → Pond | 90. Monkey → Rainforest
91. Thick fur → Keeps animal warm in cold | 92. Webbed feet → Helps swim in water | 93. Gills → Helps breathe underwater |
94. Fins → Helps fish move in water | 95. Cactus stems → Stores water in the desert

Part 5: Short Answer (Q 96–100)

96. Food, water, air (oxygen), and shelter.
97. Wide, flat feet help them walk on soft sand without sinking.
98. Hibernation is sleeping through the winter. Migration is moving to a warmer place to find food.
99. It helps them blend in with their surroundings so predators cannot see them easily.
100. Because they have thick fur to keep them warm and would overheat in the desert. They also cannot find their usual food there.
